# Your Membership

We reflect on 2021 as another successful but different year, and we thank you for helping us be the collective voice of the industry throughout it.

As we look forward to 2022, we're looking forward to more in-person events whilst you continue to utilise our new online activities and become an integral part of its growth and expansion.

Your Membership now provides you with access to our online content platform, the Knowledge Hub, where you can keep up to date with everything going on in industry. This allows you to be involved as much as you always were, wherever you may be.

We value the dedication from each and every member and have kept our fees the same for the past two years. To ensure we continue to drive the growth of IPFA, we have increased our fees by 5% for 2022. This will enable us to ensure we deliver a better, stronger and more valuable membership service for you and your organisation. Take a look at what another year with IPFA Membership can bring for you and your team...
