

IPFA

**Connecting and
empowering the world
of infrastructure and
project financing**

About us

IPFA is the global professional association that connects and promotes the collective interests of both public & private sector organisations, and professional individuals involved in infrastructure and energy project financing.

We are independent and don't exist to make a profit. We are funded and guided by our members, which include the industry's leading investors, lenders, advisors, developers, sponsors and government institutions active in infrastructure and energy markets around the world.

For more than 20 years IPFA has provided the infrastructure and energy industry with a home for thought leadership, networking and professional development.

We have earned a reputation for being committed to connecting, empowering and representing our members and key constituencies with the aim of contributing to driving continuous progress for the benefit of the industry in every sector and region.

"IPFA is more than a network. Its unique power comes from the connections it can create and how these can be leveraged."

Objectives

We are committed to driving continuous progress in infrastructure and project financing through:

Connecting

As the only global network for professionals and organisations involved in every aspect of energy and infrastructure project financing, we know that the real power of a network comes from the connections it enables and the unique ways these benefit our members and the industry, by bringing all parties together at local, regional and international levels.

Empowering

Beyond developing and maintaining a global network which enables sharing of best practice and intelligence, we believe that, as a not-for-profit professional association, one of our key contributions comes through our commitment to empower, promote and support every initiative developed by our members and stakeholders to ensure they achieve the best outcomes.

Progressing

Through our events, educational programmes and initiatives - including the Future Leaders Network - we are committed to the continual progression of the global industry and every professional individual that we are proud to have as members. Our aim is to enable and support them to work collaboratively, remain relevant and drive change in a positive and inclusive way.

Representing

As the leading independent global professional association, we have been created by professionals for professionals and exist to represent professional interest. Whilst we do not lobby, we do engage in consultations with political stakeholders to ensure that they understand the business impact of policy decisions. As such, we are committed to representing the collective voice of the industry fairly, and in a way that consistently supports positive outcomes.

IPFA Membership

Private sector membership is based on an annual corporate fee. Public sector organisations are entitled to join as honorary members, free of charge. Being a member of IPFA provides access to valued services, including connecting with an international network, sharing knowledge, and developing industry skills.

Outreach

Expand your network & promote your brand to 20k contacts

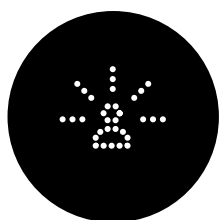

- Host a session on a topic of your choice.
- Opportunities to participate as speakers.
- Facilitated introductions with any of our global contacts.
- Share your publications & reports with our international membership base.

Webinars & online content

Access to interactive webinars & on-demand library

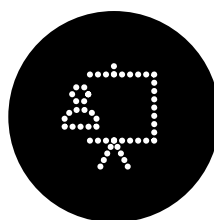

- Interactive webinars offering expert, convenient and timely information on today's hottest topics.
- Event summaries & presentation slides from IPFA events around the world.
- Video interviews with key industry figures

Future Leaders Network

Develop your next generation of leaders

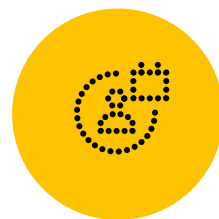

- A global community designed to support professional development.
- Opportunities to develop soft skills, keep up to date with industry trends and connect with peers.
- Interactive and social briefings, webinars, quizzes and site visits.

Training

Educational programmes offered to members at a discounted rate

- Aims to develop a greater understanding of the industry.
- Interactive discussions, working groups and case studies featured in all programmes.
- Faculty of senior practitioners who have first-hand experience and practical knowledge of the industry.
- Bespoke, in-house training available.

Global events & working groups

100+ briefings focused on infrastructure & energy

- An annual programme of over 100 industry events, webinars, workshops and consultations, all of which are free of charge for members.
- Shape the future of the industry through collaborative discussion. We respond to consultations, providing members with the opportunity to contribute their views, ideas & solutions as part of a collective voice.
- Members receive exclusive discounts and trials for industry conferences and intelligence subscriptions.
