Training Course

# Project Finance Fundamentals

## What does the course cover?

This 1-day practitioner-led, introductory course covers the fundamental concepts structured in a way to help participants understand how Project Finance, Public Private Partnerships (PPPs) and private sector investment are implemented internationally, explaining regional and country differences in approach.

The programme has been specifically designed to ensure direct interaction with our expert senior trainer, as well as networking opportunities with like-minded practitioners. Delegates will apply the fundamental concepts through an interactive real-life case study.
