Anne-Sophie Eveno

River and Mercantile
FLN Board Representative

The FLN platform delivers on all fronts: you get to network with your peers, build relationships globally across the industry, and access useful training sessions. All of which helps build your technical and soft skills as you grow as a professional.

Personally, I enjoy being part of the FLN as it is a dynamic community, always sharing new ideas and experiences. Knowing that you are developing with the leaders of tomorrow is something really special.

“The FLN platform nicely complements the main set of IPFA events, and is a great way to encourage your junior and mid-career team members to “get out there” and engage with the industry.
