Isabelle Whitehead
Plenary Group
FLN Board Representative

The FLN empowers early to mid-career professionals to explore the most pressing infrastructure and energy challenges of our generation – including decarbonisation, accessible urban housing and mobility, and enabling the digital economy.

Its interactive events and training programs are very accessible and fun to attend. Getting involved is an excellent way to build your technical and soft skills and meet other future leaders across the industry.

“

The FLN platform nicely complements the main set of IPFA events, and is a great way to encourage your junior and mid-career team members to “get out there” and engage with the industry.
